

Type KAL-4 Digital Junction Box

Product Description

The painted aluminium junction box KAL-4 is designed to connect up to 4 load cells in parallel.

In conjunction with the Type LDU xx.x Load Cell Digitizing Unit - a socket on the printed circuit board is prepared for it - KAL-4 gets a fully-fledged digital measurement system. The measurement characteristics corresponds to the characteristics of the selected amplifier.

The connection to peripheral equipment is done by the serial interface (RS422 oder RS485) of the selected amplifier.

Key Features

- Connection for up to 4 load cells
- Rugged industrial aluminium box
- Protection IP66
- Cable connection with clamping terminals
- Corner trimming by exchangeable fixed resistors
- One socket for Type LDU 68.1 / 68.2 / 69.1 / 78.1 Load Cell Digitizing Unit

Available Accessoires

- Type LDU 68.1 / 68.2 / 69.1 / 78.1 Load Cell Digitizing Unit
- Setup software (for MS Windows)

Dimensions (in mm)
